Other services on offer

Camera repair service

Does your camera need a health check?

When you're using your camera to capture the moments that matter, you need it to be reliable. As photography enthusiasts ourselves, we know how frustrating it can be for you if your camera isn't working as expected.

Sensor and camera cleaning

Great photos start with a clean camera sensor

Are your photos not coming out as clear and vibrant as you want? It might be time to get your camera sensor cleaned. Dust and debris can start to build up on your camera sensor, causing spots and blemishes on your photos.

2nd Hand camera equipment

Pre-loved camera equipment you can trust

While second-hand is often a more affordable option, but it's often a bit risky. You don't know the equipment's history, how well it's been cared for, and if it's really in the 'great condition' that the seller claims.

Camera House can take away some of this uncertainty with our fully tested and checked second-hand cameras and accessories.

Camera equipment hire

Cameras and lenses for rent when you need them

Let's face it, good camera equipment can be an investment. And sometimes you don't need a specific piece of camera gear permanently – just for a short period of time. That's where Camera House's equipment hire service can be your new best friend.

We can give you access to a range of professional camera gear at a fraction of the cost of buying.
